## MINING, BUSINESS AND STOCKS.

## NIL DESPERANDUM **GETS MORE GROUND**

Yakes Over Six Claims Adjoining Property Located in the Blackhorse Mining District.

The Nil Desperandum Mining com ing district has acquired additional territory and has just purchased from R. claims. The property is located in the gold district of that country. In speak-ing of the sale the Ely Expositor says:

R. Courtwright, of Osceola, has taken over a number of claims in the Osceola mining district, nominal consideration mining district, nominal considerations being named in each case, transferring them in turn to the Nil Desperandum Mining company. Among the deeds tronsferring property to Mr. Courtright, which were filed with the county re-order, was one from B. J. Smithson, Elizabeth Smithson, Charles Reich, A. O. Collings, I. M. Collings, R. M. Hamilton and Lane Courtwright transferring the Tootsie placer claim, one and one-half miles southwest of the T. Watkins ranch.

I. M. Collings, for a stated considera-

Watkins ranch.

I. M. Collings, for a stated consideration of \$10, transfers the Essie mining claims, two miles southwest of the T. Watkins ranch, to R. Courtwright.

Joseph W. Crame of Salt Lake Ciry, has transferred to R. Courtwright, for a stated consideration of \$1, the Crazy Man lode mining claim in Osceola muning district.

Man lode mining claim in Osceola muning district.

A. O. Collings has transferred to R. Courtwright, for a stated consideration of \$1, the Fido mining claim, two miles southwest of the T. Watkins ranch, in Osceola mining district.

R. Courtwright, in turn, transfers to the Nil Desperandum Mining company, an Arizona corporation, with its principal offices in Salt Lake City, the Estic, Crazy Man, Fido, Bumble Bee, and Tootsie mining claims in Osceola mining district. The stated consideration being \$10.

#### POOR WEEK FOR STOCKS. Sales for Six Days Lowest for Many

The week was rounded out with a change this morning, but the average of the week was wofully low and was the lowest in several years. Several securities were stronger today, and only a few registered losses. The total number of shares of stock that changed hands this morning was 25,75, while the amount represented by the transactions was \$11,063.12. The total number of shares that were sold during the week was 266,831 and the amount paid out for the securities was \$82,033.94. For several months the market has been declining and apparently it is continuing both in volume and value. Colorado was fairly firm today while change this morning, but the average

and value.

Colorado was fairly firm today while Columbus Consolidated had a hard fall. The stock slipped from 75 cents down to 71 cents. Iron Blossom was strong and Sioux Consolidated went higher. The stock has apparently reached its lowest level. Tintic dividend payers are looked upon with caution by "scalpers," they are afraid to either short them or buy them.

On the curb market 1,500 shares of Tintic Standard sold at 6 cents and 1,600 shares of Greenhorn were disposed of at 4½ cents.

MYERS AGAIN IN CONTROL. Will Direct Work of the Famous

Johnnie Mine.

Johnnie Mine.

Los Angeles, Feb. 4.—An increase of milling capacity from 100 to 200 tons daily is contemplated by the newly-chosen officials of the Johnnie Mining and Milling company.

It is proposed to develop the mines steadily, and to keep stockholders continually and fully informed as to the character and progress of operations. The management of the affairs of the company has reverted to A. D. Myers, T. A. Johnson and associates, the following officials having been chosen: President, L. J. Christopher; vice president, A. P. Johnson; treasurer, M. S. Gregory; general manager, T. A. Johnson, Mr. Myers will be a member of the board of directors.

The Johnnie mine was one of the proporties of the late W. S. Godbe and has been one of the mines worked many years ago.

FIND SOME GOLD.

Peery Claims at Goldfield Have Some Ore Showings.

Ore Showings.

Development work on the Davenport group, one of the interests of the late D. H. Peery, some four miles to the southeast of Goldfield, is steadily in progress under the direction of John Kailher of Rhyolite, for the past year or more the maneger of the Montgomery Mountain property at Rhyolite. A little before the first of the year annual work on the Davenport disclosed, near the surface, a 12-inch quartz vein that gave flattering assays, and now work of developing the vein has started in earnest. The values that were found when the vein was first opened were in bunches, Some of the quartz held no value, while other pieces showed free gold to the naked eye. The quartz was much oxidized. The vein continues promising. A great deal of prospect work is being done in the vicinity of the find, and the operators have now made up their minds that by following the ledge they are going to find an ore deposit that will give them some pocket money.

## AMALGAMATED NEVADA MILL SOON READY

Company Sends Full Statement of Condition of Concern and Plans Made for Future Work.

After several years of litigation du to mismanagement which plunged the company into debt, the Amalgamated Nevada Mines company has at last worked its way free and within a few nonths will have its mill at Blackhorse

months will have its mill at Blackhorse, Nev., working. Stockholders of the company are receiving a statement as to the condition of the company and what it expects to do in the future. The present company was incorporated in 1908 and at that time the Amalgamated Nevada Mines & Power company, the owner of the property, was offered a loan with which to pay off its indebtedness. The stock in the newer company was offered to the stockholders of the old company by which means were secured for the loan. The obligations were covered by mortgages given by the Mines & Power company. The statement says:

by the Mines & Power company. The statement says:

"At that time, the Amaigamated Nevada Mines & Power company had llabilities amounting to \$182,000, which were settled in full for \$93,000.

"The Amaigamated Nevada Mines & Power company not being able to meet the obligations of the notes to your company, the mortgage or pledge was foreclosed and the various assets of every description were taken over by your company.

every description were taken over by your company.

"While an underwriting agreement, providing for the purchase of any part of the 1.500,000 shares of your company for subscription, not taken by the stockholders of the Amalgamated Nevada Mines & Power company, was made, it could not be carried out, owing to the death of one of the parties to the agreement, and only 80 per cent of the stock offered was subscribed for, the actual amount of cash received for subscriptions amounted to \$117,280.90. CONTRACT FOR MILL.

CONTRACT FOR MILL.

"Your directors believing it the best way to handle the property economically and produce the best results, decided to have a mill erected, making a contract with the Taylor Engineering company for the erection of the same, your company to pay for freight and cartage from the plant to the mines and to furnish the foundation and lumber necessary for the building, the engineering company to do all the work in connection with the erection of the building and the setting up of the machinery.

"The engineering company, however, went into the hands of a receiver before the contract was finished and was, therefore, unable to carry out its agreement. The mill, itself, was finished and payments to the amount of \$10,432 have been made on the same, leaving a balance due the engineering company for work done, of about \$5,000, and the mill is now in Jersey City awaiting shipment to the mines, and will go forward at once.

"We will, however, have to make other arrangements for the building and setting up of the mill and negotiations are now being made with that end in view. It is estimated that to pay the freight and cartage on the neighborhood of \$16,000."

The company owns the San Pedro mine in the Blackhorse district, Ne-

neighborhood of \$16,000."

The company owns the San Pedro mine in the Blackhorse district, Nevada. Considerable ore has already been blocked out all of it running from \$12 in gold up to several hundred dollars. Supt. James H. Marriott declares that the company has enough ore on the dumps alone to keep the mill operating for at least 90 days.

LEVIES ASSESSMENT.

Property of Local Men.

Dan Greenwalt, one of the pioneers of the new gold camp of Jarbridge of the new gold camp of Jarbridge leaves this evening with a gang of men to start operations on the Jarbridge-Bunker Hill property which was recently incorporated by local men. Mr. Greenwalt is taking with him a number of experienced miners and work will begin on the property at once. Some excellent showings have been obtained from the property and it is believed that with a little depth the Bunker Hill will be one of the big things of the district.

The party will go into the camp by way of Twin Falls where it will of outfitted. Mr. Greenwalt who took up the property early in the fall, is thoroughly familiar with it, and therefore will have no trouble in pushing work in spite of the heavy snows.

WILL SHIP FROM PROVO.

First Carload of Ore Will be Sent Out Early Next Week.

Early Next Week,
(Special to The News.)
Provo, Feb. 5.—The first shipment from the Provo Mining company in Tinitie will be sent out early next week. The ore is a high grade lead similar to that taken from the East Tintic Development.
All the ore which is to be shipped was taken from the winze sunk on the

ore struck in the drift on the 300 foot level. The ore appears to be pyramid shaped and the winze, which is now down 20 feet, is finding the body growing wider.

The upraise which was driven from the 300 foot level to catch the ore struck on the 160 foot level has now reached a distance of 85 feet.

Some good ore is being taken out on the 700 foot level of the Victor Consolidated. This is being extracted by leasers and the first shipment in some time will be sent to the market early next week.

Ed. J. Roberts of the Daly West Mining company is one of the latest arrivals in the camp of Jarbridge.

Ernest L. Godbe leaves this evening for Chicago on business. Owen A. Bailey, general manager of the Demijohn property in Ploche, has returned after several months spent at the mine.

A. S. Ross, president and general manager of the Gilmore mine of the Pittsburg-Gilmore mining company, is in the city.

The storm during the early part of the week shut off the electricity and work was at a standstill for some time at the Uncle Sam, Yankee, May Day and Lower Mammoth mines. The Consolidated Mercur was also closed down and did not resume work until yesterday. On returning from the Carisa proper-ty at Tintic yesterday, Manager Grant Snyder declared that the cross-cut on the 500-foot level had gone for about 50 feet in a quartz formation of low grade copper ore. The heavy mineralization in the fractures indi-cates that a large body of ore is close by.

The honeycomb quartz vein into which the drift on the 700-foot level of the Tintic Standard has been pushed is now declared to be six feet wide. It is said that it is the same class of vein matter, containing yellow chlorides, that showed 101 ounces in silver and \$4.70 in gold. When the vein was first cut it was about 18 inches wide.

wide.

After going a distance of 25 feet in the new ore body found in the Eureka shaft at the Ely Central property in Ely, the drill work has been stopped and the shaft started again. The drill had reached a depth of 497 feet and the bottom of the shaft is at the 400-toot level. The Clipper shaft on the Clipper claim is now down 120 feet and it has been in a sulphide ore averaging from 1.4 to 4 per cent copper, and as high as \$2 a ton in gold. When the 200-foot level is reached cross cuts will be sent out.

The Success mine in the Duck Crock.

oross cuts will be sent out.

The Success mine in the Duck Creek district near Ely is fast developing into one of the richest mines in the country. It is declared by Manager D. C. McDonald that in the bottom of the drift and in the winze which is being sunk from it are eight inches and 16 inches of galena ore which is said to show values of 1,450 ounces in silver, \$3.20 in gold and 72 per cent lead, with three feet of carbonate ore which runs 45 ounces in silver, \$2.180 in gold and 52.5 per cent lead. Both samples assayed are said to represent close averages of the two kinds of ore. The galena ore values figure about \$340 a ton, while the carbonate ore values run close to \$100 a ton.

#### NEW REALTY COMPANY.

The Alliance Investment company has opened its office at 53 Main street with T. E. Newman as manager. This is one of the strongest real estate companies launched in this city for a long time. It is backed by 25 leading bust-ness men of the city and is an incorporated company, having this week filed its papers. It will transact a general real estate business.

## TRADE CONDITIONS ARE SATISFACTORY

Event of the Week Has Been the Great Weakness in the Securities Market.

EFFECT WAS DEPRESSING.

There Does Not Appear to Have Been Any Marked Falling Off in Business.

New York, Feb. 4.-R. G. Dun & Co.'s Weekly Review of Trade tomorrow will

Industrial and mercantile conditions isfactory, with a promising spring out-look. The event of this week has been the great weakness in securities.

The failure record has been greatly expanded in amounts involved in the last month, but the record seems worse than it really is, because its big total of liabilities is due to a handful of large defaults, chiefly by brokerage firms.

firms.

The record, nevertheless, has necessarily a depressing effect. It is difficult, however, to discover any material falling off in the volume of trade, although it is undoubtedly true that there is less of the tremendous push of two or three months ago.

While there has been no return to the remarkable activity of a few months ago, current consumption of iron and steel continues in heavy volume, and all leading producers are busily engaged in filling contracts on their books.

Large sellers of cotton, woolen and

their books.

Large sellers of cotton, woolen and worsted fabrics have named the closest prices for fall deliveries that have been known in the dry goods trade for some years, and they are getting business in good volume, principally on well known. years, and they are getting business in good volume, principally on well known staples of quality. In the jobbing markets the trade for the week has been more active, the moderate advances relative to the rise in raw materials doing much to stimulate confidence. Footwear manufacturers are firm as to prices, and in most instances have reserved orders on their books, so that the present situation in boots and shoes is fairly satisfactory.

The weakness prevailing in hides and leather has a slightly depressing effect on future business. Leather continues dull and values are weak.

#### TODAY'S MONEY MARKET.

New York, Feb. 5.—Money on call, nominal. Time loans, dull and easy; 60 and 90 days, 3½%; six months, 4 per cent.

Close: Prime mercantile paper, 1½%5 per cent. Sterling exchange, steady, with actual business in bankers' bills at 4.83.80%.90 for 60 day bills, and 4.85.15 for demand; commercial bills, 4.83¼%74. Bar silver, 51½.

Mexican dollars, 44.

Government bonds, steady: railroad bonds, firm.

## WEEK'S CRASH IN STOCK MARKET

Withdrawal of Organized Support And Formation of Strong Bear Party Responsible.

FUTURE QUITE UNCERTAIN.

ant Rise, Demand of Uncovered Shorts Being a Factor.

party, are held jointly responsible for the week's crash in the stock market. Trade recession is a recognized factor in the market reaction and the fear of the extent to which it may run.

The phenomena of high prices and ex-

extent to which it may run.

The phenomena of high prices and expanded gold production receive their share of attention in attempting to estimate the position. The political situation, especially the relation of corporations to the law, furnishes a theme for constant discussion in the stock market. Efforts of banks to clear objectionable collateral from their loans especially stocks manipulated by pools, was an evident factor in the market. Failure of the bond house of Fiske & Robinson depressed sentiment materially.

The dealings in stocks today saw a collection of the bond house of Fiske & Robinson depressed sentiment materially.

The dealings in stocks today saw a collection of the bond house of Fiske & Robinson depressed sentiment materially.

The dealings in stocks today saw a collection of the bond house of Fiske & Robinson depressed sentiment materially.

The dealings in stocks today saw a collection of the bond house of Fiske & Robinson depressed sentiment materially.

The demand from uncovered shorts played a part in this result which was foreshadowed by the previous rise in American Smelting rose 1%, Denver & Rio Grande, American Locomotive and Consolidated Gas 1%, Atchison and Union Pacific preferred 1 and a considerable list of active speculative stocks a large fraction. Amalgamated Copper, American Smelting and Consolidated Gas reacted a point after the opening. The rest of the list was well sustained and a later vigorous rise in Reading and the Hill stocks carried the whole market up smartly. Great Northern preferred rose 1%, the Ore Certificates 2. Northern Pacific 1%, Reading 1½ and a score or more of other stocks a point or over.

The market closed rather easy. Some profit-taking sales met a renewed rise in prices and fractional recessions followed the profit of the profit o

Sheep—Receipts, 2.000; market steady. Muttons, 4.75@6.00; lambs, 6.75@8.30; fed western wethers and yearlings, 5.00@5.75; fed western ewes, 4.55@5.55.

ST. LOUIS. St. Louis, Feb. 5.—Wool, unchanged. Territory and western mediums, 25@28; fine mediums, 20@24; fine, 12@21.

BOSTON.

Boston, Feb. 4.—The Commercial Bulletin will say of the wool market Bulletin will Saturday:
Business continues comparatively limited, as the large consumers have not re-entered the market. The outlook is re-entered the market.

re-entered the market. The outlook is for renewed activity within the nax market. The second of the

LONDON.

London, Feb. 4.—The wool auction sales closed today with offerings of 5.762 hales. The small miscellaneous selection net with a spirited demand. The series started unchanged for merinos and 5 to 10 per cent higher for crossbrads.

As the auction proceeded, competition increased with America paying increased retention to coarse and bright crossbreds, which had gained 5 per cent, while support from Germany caused a similar advance for fine merinos.

Compared with the December sales merinos closed par to 5 per cent, crossbreds to 10 per cent, and Cape of Good Hope and Natal par to 5 points higher. The home trade bought 80,000, the continent 5,000 bales about 5,000 bales were held over for the next sale.

#### PRODUCE.

SUGAR AND COFFEE.

SUGAR AND COFFEE.

New York, Feb. 5.—Raw sugar, quiet; muscovado, .89 test, 3.8(26.57; centrifugal, .96 test, 4.14(9.4.17; molasses sugar, .89 test, 3.39(26.42; Refined, steady; crushed, 5.85; granulated, 5.15; powdered, 5.25. Coffee—Spot, quiet; No. 7 Rio, \$%, @%; No. 4 Santos, 9@14.

BUTTER AND EGGS. Chicago, Feb. 5.—Butter—Easy, Creamerles, 25029; dairles, 25027.

Eggs—Easy, at mark, cases included, 19625; receipts, 4.906; firsts, 27; prime firsts, 28.

Cheese—Steady, Daisles, 176/4; Twins, 154/617; Young, Americas, 154/614; Long Horns, 154/614.

CHICAGO.

Chicago, Feb. 5.—Wheat showed an upward tendency in the early trading today after starting a shade lower to ½ higher. The controlling factor in the firmness was comparatively light receipts in the northwest.

The first hour prices crept up generally ½ and steadied there with May at 1.08½. Opening figures for May were 1.08½ to ½ a shade lower to 4.2% higher.

Corn opened generally a controlled the c CHICAGO.

higher.

Corn opened generally firm but weakened slightly in the first hour under the
pressure of large arrivals. Fluctuations
did not exceed % in the early trading,
May opened at 66 to 66% and rested at 66.
Oats showed much the same character as the corn pit and weakened slightly after a sjart from a shade lower to %
